

The Carbon Chronicle

New Volume 13, Number 14

CARBON, ALBERTA, THURSDAY, JAN. 15, 1948

Authorized as second class mail, Post Office Department, Ottawa.

Legion Notes

A meeting will be held on Monday, Jan. 19th at 8 p.m. Installation of officers will be the first item on the program. All officers for 1948 are required to be there on time. Bring along your nominations for honorary members. Also do not forget suggestions and

ideas for the year's work. This will be a busy and lively meeting and one of the main ones of the year so please attend.

The parcels for Britain fund is at a standstill with \$46 to go to make the objective of \$100. Don't let your district down in this good cause and hand in your donation now.

The T.S.D.A. out south raised \$1,400 so don't let it be said the Carbon district cannot raise \$100. Did your boys fight in vain when we ask for such a little to help the folks who suffered so much

C. Cave, Sec.

TRY A CLASSIFIED

United Church Notes

PLEASE NOTE:

The usual morning service will not be held next Sunday morning. Instead the service will be held in the EVENING at 7:30 p.m.

The service will be followed immediately by the Annual Congregational meeting. All organizations of the Church will be asked to present a report of the year's activities.

All members and adherents of the church are urged to be present at this very important meeting in the life of the church

Golden Wedding Celebrated

Mr. and Mrs. Ignatz Hagel of St. Mary's parish, Beiseker, celebrated their golden wedding anniversary on Monday, Jan. 12th, in a very appropriate manner by having a High Mass celebrated at 10:00 a.m. as thanksgiving for their 50 years of matrimonial happiness.

Mr. and Mrs. Hagel are the first parishioners of St. Mary's parish to have the distinction of celebrating a golden wedding anniversary.

The high esteem in which Mr. and Mrs. Hagel are held was shown by the large attendance at the mass not only of their children, grandchildren and immediate relatives but also by the goodly number of the regular parishioners who gathered to wish the honored couple many more years of health, happiness and prosperity.

Mr. and Mrs. Hagel were married in Devil's Lake, North Dakota in 1898 and came here in 1908 farming until 1925 when they took up residence in town.

A reception was held in the evening at their home by their children, the three sons, Joseph William and Raphael and their wives, six daughters, Mrs. Mike Schmaltz, Morrin; Mrs. Wm. Velker, Mrs. Adam Velker, Barbara, Mrs. W. J. Lavoie and Veronica; son-in-law's Mike Schmaltz, Adam Velker, and W. J. Lavoie, his brothers, Anton, Edward and Felix of Beiseker and their wives; his sister-in-law's, Mrs. Tom Hagel, Mrs. Frank Hagel, and Mrs. E. N. Hagel, also Mr. and Mrs. Magnus Miller, Mr. and Mrs. Matt Schmaltz and Rev. A. E. Tennant.

Rev. A. E. Tennant in behalf of the family presented Mr. and Mrs. Hagel with a gift very fitting for the occasion of a pair of golden rosaries, each in a golden case to mark their fifty years.

Mr. and Mrs. Hagel have 38 grandchildren and three great grandchildren and besides children already mentioned, one daughter Elizabeth, deceased.

A couple of executives were discussing the new typist. "What do you think of her?" asked one. "How is she doing her work?" With a doubtful look the other replied, "Well I don't know, but she spells atrocious." "Really," said the first executive. "She must be pretty good then; I couldn't spell it."

Lions Column

Recently I was asked by a friend, "What is Lionism?" and "What does the Lions Club do?" What has the Carbon Lions done?

I have tried to explain in many ways, to many friends, many times, so I am taking taking this opportunity to tell others what a Lions Club is.

First, a Lions Club is not a dues-collecting organization.

We do not benefit from the payment of dues and we are not interested in members to be mere button-wearers; we are looking only for men who are sufficiently interested in the organization to carry their part of the Lions work.

We are a service club which is pledged to serve its community in any and every way that its various members can figure out, as long as it is in the direction of making it a better community to live in.

As individuals we don't ask for glory for something we do but are glad that we did it.

As a group we are composed of men from the community of which the club is established, and when any civic endeavor or activity is done or needs to be done we would like to help to see that it is done; we don't condemn things, we are not a pressure group and do not resort to pressure tactics. Lions International is the largest service club on the North American continent.

We serve by putting on an activity and the proceeds from that venture are spent on some thing that will benefit the community whether it be in the village or the country. Our club is comparatively new and will soon celebrate its first year of organization.

What have we done?

A clock guessing contest:

Proceeds to life saving equipment at the local swimming pool which will be ALL set up next swimming season, with the life belts.

Hallowe'en Party:

A Hallowe'en party for the children of Carbon, costumes were judged and prizes given with treats for all present.

Christmas Party:

A Christmas picture show and treats, free to all children. Carnival:

At present we are sponsoring an ice carnival, proceeds to the Carbon skating rink which is now being rewired with the help of the village council.

Another article on Lionism will appear in this space next week.

Lion Frank.

Answering Your Questions ABOUT

IMPORT CONTROL

MOST of the countries which are Canada's regular customers have not recovered sufficiently from the war to pay, in the normal way, for all the goods they need, despite extensive help from this and other countries. Nor are they able to send us enough of their goods to balance accounts—or to pay us in the kind of money which we, in Canada, can use to buy goods in other countries.

At the same time, Canada has been buying more goods than ever before from the United States and other countries demanding U.S. dollars. This is because these goods were not obtainable elsewhere and because of demand pent-up during the war.

Buying from the United States or U.S. dollar areas must, therefore, be temporarily reduced until our trading again becomes normal.

To meet this emergency, purchase of goods and services or expenditures for travel, which must be paid for with U.S. dollars, are now subject to control.

IF YOU ARE AN IMPORTER OF CONSUMER GOODS and wish to find out what goods are (1) prohibited, (2) subject to quota, or (3) unaffected by controls, see or write your nearest Collector of Customs and Excise.

IF YOU WISH TO IMPORT GOODS SUBJECT TO QUOTA and wish to establish your quota authorization to import, or need special information, consult your nearest Collector of Customs and Excise. Quota application forms (E.C. 1) and instructions for completing them, are available at all Customs Offices. These applications must be filed with the Collector of Customs and Excise.

IF YOU WISH INFORMATION ON THE AMOUNT OF YOUR QUOTA. After your application has been filed with your Collector of Customs and Excise, all correspondence about the establishment of quotas or cases of exceptional hardship through import prohibitions should be directed to Emergency Import Control Division, Department of Finance, 490 Sussex Street, Ottawa. Quotas are issued on a quarterly basis and any unused portion may be carried over into the following quarter.

IF YOU ARE AN IMPORTER OF PRODUCTION PARTS, STRUCTURAL STEEL, stone, machinery or other capital goods or automobiles, and wish to know the import restrictions in these classifications, write or see Emergency Import Control Division (Capital Goods), Department of Reconstruction and Supply, 385 Wellington Street, Ottawa.

IF YOU INTEND TO TRAVEL OUTSIDE CANADA and wish to know about foreign exchange available for this purpose, consult any bank or the Foreign Exchange Control Board at Ottawa, Montreal, Toronto, Windsor, Vancouver. If you wish information about personal purchases of goods made during travel outside Canada, consult the nearest Collector of Customs and Excise before departure.

IF YOU ARE A MANUFACTURER, WHOLESALE OR RETAILER and wish information about excise taxes, or about the list of goods to which they apply, consult the nearest Collector of Customs and Excise.

IF YOU NEED OTHER SOURCES OF IMPORTS consult the Foreign Trade Service, Department of Trade and Commerce (Import Division), Ottawa, regarding your supply problems arising from import quota restrictions. Through the Trade Commissioner Service, the Import Division is endeavouring to arrange increased supplies from the United Kingdom and other "non-scheduled" countries.

IF YOU ARE A HOUSEWIFE and wish information on available alternate foods which have comparable nutritional values to those now prohibited or subject to quota, informational material which has been prepared by the Nutrition Division of the Department of National Health and Welfare may be secured from your Provincial Health Department or local health unit.

The administration of these emergency import controls is the responsibility of various departments of the Government. The above information is given to aid Canadian citizens in complying with the new import control regulations with a minimum of inconvenience in their business and personal affairs.

Douglas A. Coors
Minister of Finance.

CANADA NEEDS
U.S. DOLLARS

THE STRATEGIST

OUR COMPLETE SHORT STORY—

"Gloom hung like a fog over the small room. Both Joe Winsor and his sister Anne fixed their eyes on the pale green door of their mother's room. Silently the door opened and a shadow detached itself from the doorway. Dr. Miller stood before them and shook his head.

"I'm sorry, Joe, sorry Anne. She's gone." Anne put her face in her hands and her red hair spilled over her shoulders. Joe suddenly eyed his sister as he pulverized his cigarette. "She didn't suffer, Anne, she went quickly. Have a good cry, you'll feel better."

"Sure, let her cry, Doc," Joe said brusquely. "She fought with Ma for years." He lit a fresh cigarette and traded from the room.

When Anne got home, Bill Carson was sprawled on the sofa like a collapsed parachute. He had his forehead pulled over his face and an unpleasant odor floated above him. Anne stood in the easy chair, Bill shivered his hat back on his head and squinted.

"Where yuh been, over at your old lady's again?"

Anne winced. "Please, Bill. You needn't worry about Mother botherin' you again. She's dead."

Anne's voice was black coffee to his befogged brain. His bloodshot eyes raced around the room and rested on his wife.

"Dead, huh? Well, who yuh goin' off with now?"

"You're the only reason Mother died, huh?"

"You always say the same thing."

Mennonites To Quit Canada

**Twenty-Three Families
To Leave Central
Saskatchewan For Paraguay**

GOLDTOWN, Sask. — Twenty-three Mennonite families will leave this west central Saskatchewan district for a new life in a new continent as soon as they can arrange transportation.

Numbering approximately 90, they will join more than 2,000 from Mennonite communities at Halstead and Altona, Man., in a migration that will carry them more than 6,000 miles to central Paraguay in South America.

Most of them belong to the Sommerdahl sect, one of the four sects of the Mennonite Church, whose history has been marked by frequent migrations in search of religious freedom. Some of the migrants came from Russia in the original Mennonite influx into Canada between 1870 and 1872, but most of them are children of the original settlers and were born in Mennonite communities scattered between Moose Jaw and Swift Current, Sask.

No definite reason for the migration has been given, but such moves

SIGNS CONTRACT—Daughter of a New York physician, pretty Carol Wonderman has signed a contract with a French film production society. A cover girl, Carol had re-suscitated Hollywood offers while in the U.S. and went to France to study film. While on the Riviera, a French film director spotted her and persuaded her to sign up.

WORLD HAPPENINGS

BRIEFLY TOLD

A five-year trade pact between Russia and Czechoslovakia has been signed in Moscow.

LONDON. — Wigmakers report a boom in their business because so many men in their early 40s are going bald.

L. Tobin, who 12 years ago was an office boy, recently completed a \$640,000 (\$2,560,000) property deal for his firm in London.

Generalissimo and Madame Chiang Kai-shek observed their 20th wedding anniversary, entertaining 30 friends at an official dinner.

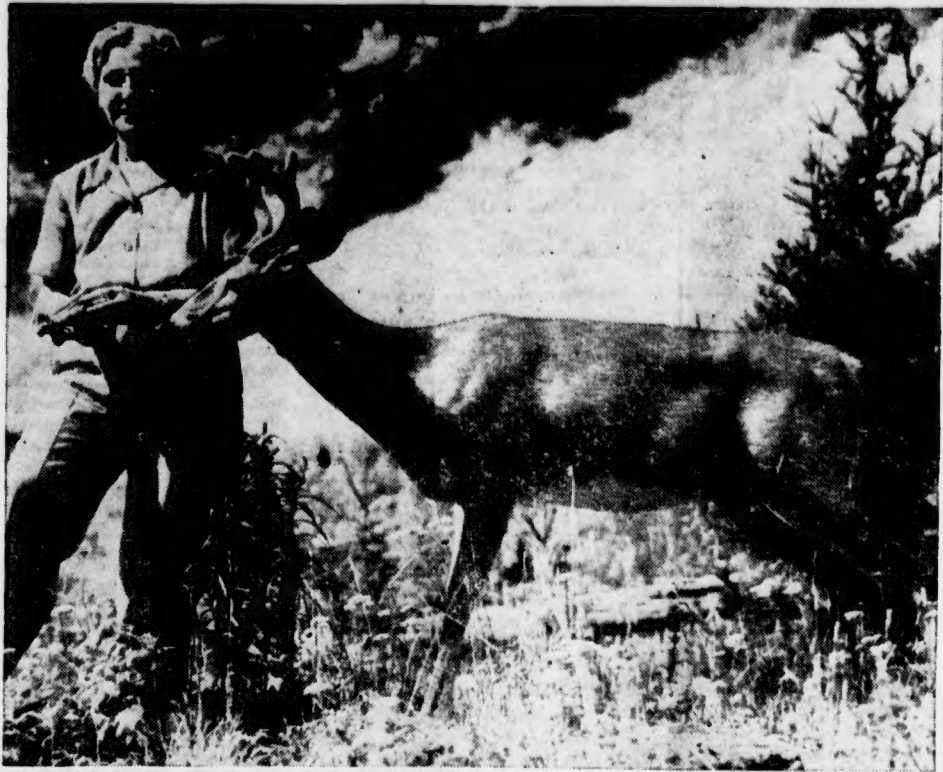

Twenty-nine parents complained to the Grammar School at Hearnor, Derbyshire, England, that their children had not enough homework.

The 1948 convention of the Dominion Command of the Army, Navy and Air Force Veterans in Canada will be held at Victoria next Oct. 5-9.

The International Socialist Conference at Antwerp decided to admit to full membership the Social Democratic Party of Germany, led by Dr. Kurt Schumacher.

Lieut. A. R. Hewitt, RCN, stationed at HMCS Naden in Victoria, has been appointed Canadian naval member to the international radio frequency control board in Geneva.

Centre of an argument caused by his green trousers, yellow-and-red tie and light fawn coat, James Lynch was bound over for 12 months for disturbing the peace at Ipswich, England.

ALGONQUIN PARK DEER BEG FOR FOOD—Though poachers sometimes betray the trust of the animals of Algonquin Park, Ont., visitors to the park have little trouble becoming friendly with deer and even beaver and chipmunks. This deer is actually begging for food from the hands of a visitor to the park.

BUSINESS FAILURES UP IN CANADA

OTTAWA. — Business failures for the third quarter of 1947 rose to 136 compared with 64 in the same period last year and the highest for the period since 1942, the Dominion Bureau of Statistics reported. Failures in the third quarter of 1942 were 173, in 1940, 256 and in 1939, 343.

The reservoir at Zaghouan, Tunisia, has been supplying drinking water for more than 1,800 years.

WINNIPEG MAN TO JOIN STAFF OF GEN. ODLUM

OTTAWA. — Colonel John F. Bingham, CBE, of Winnipeg, has been appointed Canadian military attaché at the Canadian embassy in Turkey. He will join the staff of General Victor Odlum. Since 1946, Colonel Bingham has been stationed in Ottawa as director of army cadets.

Rome's Colosseum, finished by Titus in 80 A.D., held 100,000 spectators.

NEEDS REPAIRING

SHEERNESS, Kent, England. — The town clock strikes odd hours at odd times, a fault which experts blame on missiles thrown in the merriment of victory celebrations two years ago.

PRINCESS SENDS THANKS FOR GIFTS

OTTAWA. — Prime Minister Mackenzie King read to the house of commons a letter of thanks from Princess Elizabeth for the wedding presents received from Canada.

The letter read:

"I am most grateful to the government and people of Canada for the wedding present of such remarkable generosity which they have sent me. They have given me a collection of silver so magnificent, both in quality and in quantity, that my pride in its possession is only equalled by my pleasure that the people of Canada should have seen fit to express their goodwill toward me in this way.

"Not content with this splendid present they have sent me in addition a mink coat of absolute perfection. Whenever I wear it, as I very often shall, it will remind me of the moving tributes and marks of affection which have reached me from all over Canada during these last few weeks and which have left a very deep impression on me.

"I look forward to the day when the Duke of Edinburgh and I will be able to visit Canada, to thank its citizens in person for their kindness towards us, and to learn to know the country and the people as we most earnestly desire to do."

EXHIBITS PAINTINGS

QUEBEC. — An exhibit by Viscount Alexander, Governor-General of Canada, was among 189 oil and water color paintings displayed at the opening of the 68th annual exhibition of the Royal Canadian Academy of Arts here.

RECIPES

PRUNE APPLE FILLING

1 1/2 cup chopped cooked prunes
2/3 cup chopped apples
1/2 cup brown sugar, firmly packed
1/2 cup water
2 teaspoons vinegar or lemon juice
1/2 teaspoon salt
1/2 teaspoon cinnamon
Combine all ingredients and boil gently 5 minutes, stirring often. Cool. Use as filling for coffee cake. Try serving the coffee cake for dessert with cream.

Outlook For New Cars

The government's import restriction plan for the auto industry has begun to take shape and the outline seemed to promise some rigid automotive belt tightening.

For car-hungry Canadians particularly those waiting for higher price models, the shape of things to come appeared to be anything but bright.

Talks with some top executives suggest that it's almost certain that more expensive makes are going to be almost as scarce as Stanley Steamers.

To a lesser degree, the outlook is gloomy for other expensive imported American cars, particularly new makes like Kaiser-Frazer. Some lines of small volume trucks are almost certainly to be discontinued in the industry's scramble to stretch its quota of U.S. dollars to the limit.

The last resort will be to tamper with production of the low-price popular makes made in Canada. But if the dollar saving program is as severe as some expect it to be, it might come to this.

Even without this, 1948 supply is expected to be tighter than at any time during the postwar period to date.

Banking By Mail Is Safe, Handy

If you find it difficult to get to the bank, either because you live out of town or are busy during the banking hours, Dan Rusler, local B of M manager, can tell you in four words how other people similarly situated do their business at the B of M. They bank by mail.

This method brings the Bank of Montreal as near as your own mail box. Under the B of M's "Banking by Mail" plan you can send in cheques or cash for depositing and you can pay your bills by cheque drawn on your account, too.

While you're thinking of it, it would be a good idea to write now to Mr. Rusler, explaining your banking needs. Ask him for your copy of "How to Bank by Mail." It can save you time, trouble and many a trip to town.

What is
THE BEST THING I CAN DO
with my
WAR SAVINGS
● **CERTIFICATES?**

Make those
WARTIME SAVINGS
your
PEACETIME
● **BACKLOG...**
this easy way

Now that your War Savings Certificates are beginning to pay off, why not keep this backlog of security intact. Use this money to create a "Fund for the Future" — a welcome asset in time of opportunity, a ready resource in time of need.

Here's a way to ensure that this money you've already saved doesn't slip through your fingers. Endorse and mail your maturing certificates, as described on the back, to Ottawa... then, when you receive your cheque, place it in a B of M Savings Account.

Better still — let the Bank of Montreal take care of all redemption details. Just bring all your War Savings Certificates to your nearest B of M branch. As each one comes due over the next few years, we arrange to get the cash for it and credit its full face value (which includes the interest) to your account.

Under this arrangement, there's no need for you to go to the fuss and bother of endorsing each individual certificate — the Bank will attend to this for you.

You'll find this service will save you time, trouble and worry. And while your Savings Account is growing — your War Savings Certificates will be in safekeeping. You'll be surprised at the low service charges, too.

A backlog of security today is your guarantee that you will get the things you want most tomorrow. Hold on to it — add to it — and do a real dollar-building job for the future.

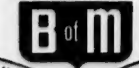

We'd like to help you plan this. Just bring in your War Savings Certificates now... we'll do the rest.

If you haven't a savings account with us, we'll gladly open a special one for you.

FARMER'S COLUMN

By R. J. Milligan

1948 is here, and I will start by wishing you a Happy and Prosperous New Year. I have just read an article titled, 'Who Knows How to Farm?' Sometimes, even the white collared farmer doesn't know what to say to some of the complex problems that confront him from time to time. When we realize that the white collared farmer, who has an opportunity to read, visit, exchange ideas and contact a large number of well-informed people, cannot give the answer immediately, how can the farmer answer the same questions without help? That is part of the reason why I have been stationed here: to help whenever possible. My problem is to get you farmers to help yourselves to the services made available by the department of agriculture. No one can know everything there is to know about agriculture. If at any time I cannot answer your question or solve your per-

sonal problem, I shall get help to do so.

This year as we plan our farming program, we cannot think merely of the crops we would like to plant or the stock we prefer to raise. If we are to play our part fully we will seed and feed what the world requires.

National and international bodies have studied food requirements and have made recommendations based on the knowledge they have obtained. This data has provided us with the necessary guidance to determine what we will grow. Above all we must produce the maximum.

This new year brings us a challenge in that farming during 1948 is more than a means of securing a livelihood. It may well be that the kind, and especially the amount of crops grown this year will determine whether or not civilization will pass through the morass of doubt and mistrust that has been so greatly aggravated by hunger.

The province of Saskatchewan

is planning to go all out for wheat production. What are we going to grow in Alberta? Oats, barley and flax are urgently needed. We have a larger rainfall than our sister province and are more favorably situated to grow the coarse grains. This should enhance our livestock program.

Through all the efforts we make during 1948 let us envision a long term program to save our soil. Data shows that the importing countries will soon be growing their total cereal requirements. Where will we market our grains and livestock products when this occurs?

Because of the above I have forewarned what is likely to happen. Therefore lay your plans soundly this new year and above all, save our soil.

Child Welfare

The administration of child welfare in Alberta is being examined by a royal commission appointed by the Alberta government. This step was taken because of charges of mismanagement and ill-treatment of indigent children, made by Charlotte Witton, a social worker from Eastern Canada. She was asked to make an investigation by the I.O.D.E.

While the commission sittings were being held Liberty magazine, published in the east, came out with a sensational "expose" of what it claims conditions of child welfare administration were in Alberta. The article accused the Alberta government of being heartless and ruthless in this respect.

Alberta people have not been greatly aroused by the so-called "exposures". They believe the commission will conduct a careful investigation and present a factual report. Until then comment might well be reserved. We want good treatment for unfortunate children who come under the care of the province. But before we go after our provincial government we want facts whereon to base our accusations.

OUR HALF ACRE

By J. G. UMBRITE

Cleaning Seed:

If you grain is suitable for seed, clean it well on your own farm or in a reliable seed cleaning plant or portable cleaner. A fanning mill on the farm will not introduce new weed seeds and if operated properly will do a very satisfactory job of cleaning. Some weed seeds are difficult to separate, but most of them can be removed if proper sieves are used and time is taken to determine the proper combination of size and slope of sieves, shake air blast and rate at which the grain passes over the sieves.

Germination Tests

Before cleaning and treating seed grain a farmer would be well advised to have a germination test made. The elevator companies have facilities to have this done. See your local elevator agents for particulars.

Good Seed

Farmers interested in securing supplies of good seed should order now as good seed supplies are again short in supply.

Teacher Shortage

"Our teacher shortage has passed its most critical stage." This statement by our minister of education will be widely welcomed. He adds cautiously, "We are a long way from having the situation completely solved." As a warning against complacency, this is good common sense. Nothing has been done yet which will stabilize and maintain a teaching force adequate to the needs of this growing province. We are still lurching along, paying high wages when we are desperate, paying low wages when there are lots of teachers to be had. Just now we are bribing young people with scholarships into the teacher-training colleges with money that ought to be spent on decent retiring pensions. The great bulk of educational dollars is still sweated out of the people where

it hurts most, in taxes on homes and farms. Present day costs of modern schools with good teachers cannot be met through this antiquated tax system. Granted that these are stormy times we live in, the fact remains that there are thousands of bright young men and women who could be teaching our children. And we are still waiting for a provincial policy that will bring them into this most essential public service and induce them to stay in.

Regulations Concerning Car and Truck Accidents

Under the law auto licenses of persons unable to pay damages or judgments for auto accidents over \$25.00 are cancelled and not renewed until case is settled. Prevent this calamity by carrying Auto Liability Insurance.

PROFIT ON OATS AND BARLEY SOLD
UNDER PRICE CEILINGS

All customers of 'Pioneer' Elevators are requested to call at their elevator and receive a cheque covering an additional payment on oats and barley delivered during the current crop season, between August 1st and October 21st, 1947, when price ceilings were in effect.

This payment is an interim distribution of the fortuitous profit made by the Company on oats and barley which it had on hand, and unsold, when price ceilings were removed on October 21st.

**This payment is 12 cents on oats and
10 cents on barley.**

Final payment will be made at a later date.

IT PAYS TO PULL TO THE 'PIONEER'

The government has also promised to make some adjustment to farmers on oats and barley delivered at ceiling prices between August 1st and October 21st, 1947. We trust they will take definite action to implement this promise in the near future.

ARMED BRITISH TROOPS GUARD SACRED CITY—An armored car carries Jews through the Jewish quarter of Jerusalem under a guard of armed British soldiers as the sacred city is ravaged by rioting mobs of Arabs. The mobs attacked and counter-attacked, wrecking shops, smashing windows, shooting and hurling stones.

POLICE CAUGHT HUNTING DEER—Police Chief William Cudmore and his assistant, George Bish-ton of Bracebridge, were suspended by the town council after they had been charged with illegally hunting deer in Algonquin Park.

"JUST WAIT TILL I TELL THE GANG ABOUT THIS!"—"Oh! gee, gosh!" That is what four-year-old Larry Dale McBryar Zavada said when his parents told him that the stork is bringing mother four new babies soon. Mrs. Barbara Zavada, 25, shown above with her husband and son, disclosed that hospital x-rays indicate she will give birth soon to quadruplets. Dr. J. Wiley Hartman, examining physician, said he first suspected multiple birth when he examined Mrs. Zavada. Their home is in Dorothy, Pa.

ELECTRICIAN IN SYMPHONY—First woman to play the stringed bass with the Toronto Symphony orchestra is Ruth Ross, 24, from Vancouver. She went to Toronto on a scholarship at the Royal Conservatory of Music. She played with the Vancouver Symphony orchestra, often turning up at rehearsals in coveralls, so she would lose no time returning to her job as an electrician helper at a shipyard.

WEARY PARISIANS DID NOT LIKE BUS DRIVERS' STRIKE—Weary French workers line up for one of the few buses operating in Paris during recent strike, now ended, which saw as many as 2,000,000 persons idle. Premier Robert Schuman, seeking to consolidate his victory, promised workers quick action to raise living standard.

REGULATES TEMPERATURE—Cheta, Hollywood chimpanzee, probably is the first chimp ever to have a hand in regulating the temperature of his own air-conditioned trailer. His trainer is studying the effects of heat and humidity on animal ailments, and Cheta appears well satisfied with the day's record, as the heat is recorded on pad with a pencil by the chimp.

KITCHENER HOCKEY PLAYER TELLS OF COLLISION—Arnold Miller, Kitchener, Ont., hockey player, tells Con. Frank Wain about the collision when the automobile in which he was driving was struck by a C.N.R. freight train at Hamilton, Ont. Six members of the Kitchener Greenshirts, Ontario Hockey association junior "B" team, three of their first-line stars, narrowly escaped death. They were returning from St. Catharines, Ont.

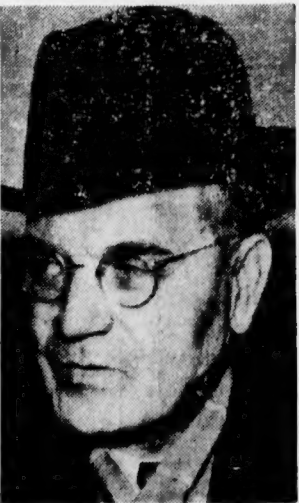

UKRAINIAN QUEEN—Queen of the popularity contest sponsored by the Ukrainian people of St. Boniface, Man., is Katherine Minchuk, 15. She was crowned by Acting Mayor Par-burn in the Winnipeg suburb.

ALL VENICE WAS A CANAL—Gondoliers in Venice had a busy time when the Grand Canal, overflowing its banks following heavy rains, flooded streets and buildings. Here some of the Venetians are wading, while others ride in gondolas.

ONE HOUR BEFORE IT WAS A TWO-STORY HOUSE—Firemen comb the wreckage of a two-story house in southwest Los Angeles for possible victims after the building was completely demolished by a violent explosion. Four exterminators were reported to have been inside the house when the blast occurred. Three of the men were injured.

GET MORE SEATS—Premier J. W. Jones of Prince Edward Island, who has announced he would call the island legislature early in February. His announcement followed Liberal forces' victory into power in a recent general election.

GOOSE BAY IS SCENE OF AIR-RESCUE OPERATIONS—Goose Bay, Labrador's war-born airport is the scene of another rescue operation. A few miles from this Goose Bay church a U.S. army transport crashed with 29 persons aboard. A helicopter was loaded on a transport plane at Chicopee, Mass., was reassembled at Goose Bay and landed a half-mile from the wreckage of the plane.

An Objective Of The F.A.O.

SIR JOHN BOYD ORR, IN RETIRING from the position of director of the Food and Agriculture Organization of the United Nations, has, in spite of the returning uncertainty regarding the stability of markets for farm products, firmly stated that "there is no chance for greater world food production than the people of the world need for good health, as far ahead as one can see." It is unlikely that there is anyone in the world better qualified to make such a forecast than this noted British farmer, scientist and nutritionalist who was recently elected to the British House of Commons as member for the Scottish Universities.

Leaving his home in Scotland two years ago, Sir John Boyd Orr, at the age of 64, went to Washington to be the head of the Food and Agriculture Organization. During his time there he became familiar with the problems relating to agriculture in Canada as well as in other countries, and he was well known to many Canadians. In connection with the work of the F.A.O., which is concerned mainly with providing a central point for the distribution of information regarding the production, distribution and consumption of food, and to promote international co-operation in these matters, Sir John continually stressed the great need for raising standards of nutrition.

He further believes that there should be concern not only for those countries where food supplies are low, but also in many places where, in spite of a plentiful supply of food the people are poorly nourished because of lack of proper knowledge of nutrition. The great problem which has faced the F.A.O., and which has still to be solved, is to ensure that all available food reaches those who need it, and that sufficient is available to have healthy standards of nutrition everywhere. It is obvious that many economic considerations stand in the way of such an achievement, but in the opinion of Sir John Boyd Orr, if such objectives could be reached, there would be little likelihood of future wars.

Might Avert Future Wars
The further he believes that there should be concern not only for those countries where food supplies are low, but also in many places where, in spite of a plentiful supply of food the people are poorly nourished because of lack of proper knowledge of nutrition. The great problem which has faced the F.A.O., and which has still to be solved, is to ensure that all available food reaches those who need it, and that sufficient is available to have healthy standards of nutrition everywhere. It is obvious that many economic considerations stand in the way of such an achievement, but in the opinion of Sir John Boyd Orr, if such objectives could be reached, there would be little likelihood of future wars.

Was Known To Many Canadians

Most Mothers Do This

If Baby Has A Cold

At Bedtime rub Vicks VapoRub on chest, back, throat, and under the nose. Often by morning the cold is eased.

Best-known home remedy for colds and coughs. VapoRub starts to work in 15 minutes. It keeps easing distress, and it keeps on working during the night. No wonder most mothers do this when a baby has a cold or cold strikes.

Tonight, try VICKS VAPORUB

Set For Royal Couple
Correct Titles
Proper Form Given In Palace Circular
LONDON. — The correct titles of Princess Elizabeth and her husband now are set by the court circular as "The Princess Elizabeth (Duchess of Edinburgh) and the Duke of Edinburgh." The full title of Princess Elizabeth is "Her Royal Highness the Princess Elizabeth, Duchess of Edinburgh." The full title of the Duke of Edinburgh is "His Royal Highness Prince Philip, Duke of Edinburgh." The duke would sign himself "Philip" and not "Edinburgh" as he ranked as a British prince, the circular issued daily from Buckingham Palace, said.

ZIEGLER, who died on 7th September 1947, are required to file with the undersigned by February 20th 1948, a full statement duly verified of their claims and of any security held by them, and that after that date the Administrator will distribute the assets of the Deceased among the parties entitled thereto having regard only to the claims so filed or which have been brought to his knowledge.

Dated at Land Titles Bldg., Calgary, Alberta, 30th December, 1947.

D. L. SLOAN,
Public Administrator for the Judicial District of Drumheller

Protect the birds, doves bring peace and storks bring tax exemptions.

Red Cross Transfusion Service

Operating in Alberta only five and a half months, the Canadian Red Cross Society's free Blood Transfusion Service has already collected and distributed nearly 7,000 bottles of whole blood to the hospitals throughout the province at an estimated saving to the public of over \$100,000.00.

In addition to the use of whole blood over 1,500 bottles of plasma have been stored in Alberta hospitals to be used in times of emergency and in the treatment of shock cases. The carrying out of over 2,200 Rh clinical typings in cases of expectant mothers is another feature of this free Red Cross service.

Organized in Alberta in July, the Canadian Red Cross Blood Transfusion Service is now the sole source of supply for blood to nearly all hospitals in this province. Under this new service any patient requiring a blood transfusion now receives it entirely free of charge. In co-operation with the Red Cross hospitals and doctors administer transfusions without cost to the patient. A nominal price of \$15.00 per bottle used to be charged before the Red Cross started this free Blood Transfusion Service which has meant a saving to the public of over \$100,000.00. This saving is further increased by the Red Cross also supplying all equipment and professional diagnostic services.

Medical and hospital authorities throughout the province give high praise to this new service and credit it with the saving of an inestimable number of lives.

The service depends upon the conscientious support of every citizen to come forward willingly as a blood donor.

WORLD OF WHEAT

The Parliament of Canada reassembles at Ottawa on January 26th. An important subject for debate will be an increase in the price of wheat. Rumor tells us that the government will recommend an increase of 20 cents a bushel to pay to farmers the full \$1.55 which Britain is paying and which Canadian millers are paying to make flour for the people's use in Canada.

A survey made by the Searle Grain Company last September showed 55 percent of farmers were dissatisfied with the \$1.55 price. In October "The Country Guide" showed 65.8 percent of wheat growers were dissatisfied and another survey just taken by the Searle Grain Company now shows 76.2 percent dissatisfied, so the discontent is increasing week by week. More and more farmers are beginning to ask why should farmers be the only people required to subsidize Great Britain and the people of Canada so they can have cheap wheat and so cheap bread. Farmers, therefore who believe they are entitled to the full world price for their wheat, and that the Canadian government should pay the subsidy to Britain and to the people of Canada, should I suggest, write at once to their Members of Parliament at Ottawa stating how farmers feel about it all.

Cost of living index 150 not if you trade at Nash's, probably about 110. We have made some wonderful buys and offer you savings of unbelievable, stupendous, magnitude. Wow!
